

THE GLEICHEN CALL

VOLUME XXXVII NO. 28

GLEICHEN, ALBERTA, WEDNESDAY

SEPTEMBER 27, 1944

SUBSCRIPTION \$2.00 PER YEAR

Seventh Victory Loan Calls For Increased Subscriptions Here

The objective for the Province of Alberta for the Seventh Victory Loan, the campaign for which opens on October 23rd, has been set at \$43,000,000. Mr. G. E. Osborne, Chairman of the National War Finance Committee for the Province of Alberta, in an interview, "The objective in the Fifth and Sixth Loans was \$37,000,000 in each case, the increase of approximately twenty-five percent in the general sales and payroll sections, and making the Seventh Victory Loan the largest national undertaking ever accepted in this province."

As to outline the reasons for this heavy increase, Mr. Osborne said that in previous loans the major requirements were for the training of personnel and production backlog of munitions and supplies. Since "D" Day, however, the Armies of Canada have been engaged in actual combat, a much more costly phase of war than the preparation period. The demolitions, the reconnaissances, the patrols, the such conditions as terrific and dangerous a continuous flow from factory to boat, from boat to beach-head, from beach-head to the front line. Only by having too much can there be enough, to guard against exceptional pressure at unexpected points."

Mr. Osborne did not believe that the expected collapse of Germany would at all lessen the need for the greatest financial effort of the Canadian people. Should Germany break out in Germany, an immense army of occupation would be required, and former enemy countries would have to be similarly protected. But the fact is that at the end of the European phase of the war would immediately see intensification of the war in the Pacific, beginning with the transportation of millions of tons of equipment and supplies to the Far East. Any further extension of the war at this time, due to the European situation would be most detrimental to our war effort, and, if given effect to, would undoubtedly unnecessarily prolong the war.

In the abolition of compulsory savings, the savings bank credit at an all-time high, full employment, farm incomes at peaks never before reached in this province, and the way in which the banks have been instrumental in their upturn to their maximum in previous loans made Mr. Osborne optimistic that the higher objective would not only be reached but greatly exceeded. The banks, he said, are becoming more "bank on-savers" as the financial pages show previous loans, holding at par or better, he said. Double bank interest which the banks carry, makes participation in campain not only an act of patriotism but also a good business.

The management committee of the Alberta National War Finance organization has already held many meetings with those responsible for the various sections for the success of the loan. Others are to be held during the weeks before the campaign opens. It is hoped that individuals from all walks of life, from the top to the bottom of the subscriber's income, will early review their financial position and be prepared to subscribe early either through the canvassers who will call upon them, through their banks or through the personal efforts of their firm. "The accepted slogan for the campaign "Invest in Victory" puts it in a nutshell," concluded Mr. Osborne.

WHAT THEY WANT THEIR SCHOOL TO BE

The school bell will clang on Monday morning—a reminder of the high hopes we have pinned on education. From way back in our own country—and from now on in the countries of war-torn Europe—we think of what the school can make of its children. Few, however, turn the cart around and think of what our children can make of their school.

Here is a letter written by officers of a 4th high school in Edmonton to their school principal: "What we want our school to be next

term:

... school with one supreme aim—set in motion a pattern of honesty, unselfishness and unity for the nation.

Students thankful for the chance to learn. Perfection in the class room, towards perfection on the football field.

Students who have changed a "self" spirit to a "give" spirit, who give their best wherever they are and love their school enough to want nothing but the best for it.

Students who know what is right and do it.

Teachers not blinded by what students can do, but who will uplift them to do what they can and do it.

Teachers who realize that they are training the statesmen of tomorrow, and that the character they give the students today will mold them for the future.

Youngsters everywhere thought as much and cared as much about their school as this what would happen to the juvenile delinquency, divorce and crime rates? What it would bring to the face of the returning soldier. What new hope it would give to the bomb-shattered class rooms of Europe.

As one of the same youngsters put it, "We may be too young to fight overseas but golly, there's plenty to fight for right here at home!"

FROM THE FILES

TWENTY YEARS AGO

W. Dummer spent a few days last week visiting his Gleichen home. He now owns a fine store in Banff.

A platform for transformers for the new electric light system has been opened on O.P.A. property at the new town of Avonlea. It will be a couple of weeks yet before the juice will be turned on for Gleichen.

The arrival of material of war arrived from Alderson to start construction of the new Gleichen waterworks which will start at once. The hotel is expected to be ready for occupation in ten weeks.

Jack Riley and Dick Madden have come back from a trip to California which ended in San Francisco.

A. Davis, who had been on the Commerce staff for a couple of years left on Monday to take a new appointment.

A number of teams are busy hauling logs from the timber bridge on the extension of the Lomond railway branch to Arrowood.

Threshing has started on the Blackfoot reserve near Namaka. The crop is running around 20 bushels an acre.

Agent G. H. Goodhew is a consultant who has been loaned to Contractors McFertry for the construction of eleven more houses and eleven more barns for the Indians on the Blackfoot Reserve. They are all of the same type as those already constructed.

JOE CITIZEN SAYS—

Some think the war is nearly through, some take a quite contrary view, but, in my opinion, and with one viewpoint I agree, and that is we must carry on until the need for help is gone. Sunwise the fighting has done some damage but it will have to be won and that if I see sailing right, won't be a dog over night.

Nic sir, we won't for a many a day from war-time rules get clear away. War's been hell but we'll be getting out and won't come cheap.

So dream of good times let us quit and to our country's needs submit. Let's lend our money anyhow—that's what we're asked to do right now,

and, personally, I just plan to lay in every bond I can.

The drive to manufacture footwear for the Armed Services is on. Canada cracked down on gasolines rationing regulations imposing fines ranging up to \$1500 each according to the latest War-time Prices and Trade Board circular.

About 5000 matches are lighted every second, of which about 4,900 are borrowed.

FIRST WOMEN TO LAND IN FRANCE

Shortly after the landings in France a party of 50 nursing sisters arrived. Their purpose was the setting up of

a general hospital to house 600 patients, and with the assistance of Pioneers and the R.A.M.C. the hospital was quickly established and is now functioning well.

PTE. CLARENCE WOODS REPORTED WONDED

Word has been received by Mr. and Mrs. E. Woods that their son Clarence Woods, 20, a Private, while in action in France. Up to the present time no further word has been received as to the seriousness of his wound. His wife and family reside in Donora, Alberta, sometime ago Clarence was reported missing but since that time later word was received he had returned to his unit.

TOWN AND DISTRICT

Mr. and Mrs. Irvin "Scotty" Gove of Black Diamond, Alberta, were in town over the weekend. They left Monday morning for Drumheller to visit friends there.

Misses Dorothy and Thelma Brown of Arrowood were visitors to the Gleichen home of Gleichen over the weekend. Their main purpose was to see their brother Fred before he left for the east.

Jack House is leaving this week to attend the university at Edmonton.

Len Freddie Brown of Arrowood has been in town for a week prior to his leaving with a large number of other airforce men for the east.

Miss Muriel Gilbert of Calgary was a visitor to her home here over the weekend.

Mrs. Walters and son Billy were visitors to Cluny for a time last week.

B. Bates received word that Mrs. Hughe Bates died at Kimberley, B.C. Tuesday evening.

Sgt. Elizabeth Goodher, R.C.A.F., Halifax is at present visiting her parents here. Major and Mrs. H. Goodher.

An outline of border crossing regulations of interest of this province has been issued by the Alberta Motor Association. Border officials say the trouble lies in a confusion between (a) U.S. regulations governing entry to the United States; (b) Canadian regulations governing exit from Canada. No specific documentation is required for the first visit, and for the second visit, a Canadian citizen of British subjects who are admitted to his status if the visiting period is more than 29 days, the visitor must have a visa from a U.S. consulate. All residents of Canada wishing to leave the country for any length of time require an exit permit issued under authority of the Foreign Exchange Control Board. These can be obtained in any chartered bank.

Viscose, a durable plastic formerly reserved for children's shoes, will supplement short supplies of rubber and leather soles for all types of footwear it is announced. Retail prices for footwear made with viscose will be slightly higher.

Evenly the prices of admission to dances are going up. One bill now-allowed gent would have to pay \$16 for the privilege of holding a frame in the floor for the latest dances.

Over 5000 matches are lighted every second, of which about 4,900 are borrowed.

News Items of Local Interest

H. Hamer has purchased the residence owned by P. B. Nelson and will move into it soon.

A. MacCallum attended the sales training meeting for the coming Victory Savings held at the Hotel Staff Sgt. Lester Boon, B.C.A.F., who is a prisoner of war in Germany has written that he has received the blanket sent him by the local Red Cross. He adds that he certainly appreciates the blanket.

School opens next Monday, October 2nd.

W. J. physician states he had application for the new Victory Loan coming up next month. This was on Monday for a \$500 bond and paid for in cash.

Mr. and Mrs. Hugh James who live in the west end of the town are preparing to move into the house occupied by Mr. and Mrs. H. H. Hamer.

T. H. Beach, our enterprising independent dealer has just had the front of his place of business painted, which throughout the whole stock. The total floor area of the stock is about 7,000 square yards. The book verve from the stock is controlled from the front door from the superintendents desk. New arrangements through which the book applications forms are shot, a system of message tubes back to the counter and to every stack floor.

The Manchester Central Library is one of the greatest libraries in the world and to this library come students from all parts of the globe seeking information. Not only go there students daily but also many go there for pleasure. It is a \$100,000 appropriated for it when opened.

The Manchester Central Library was built in 1892. The building is about 7,000 square yards. The book verve from the stock is controlled from the front door from the superintendents desk. New arrangements through which the book applications forms are shot, a system of message tubes back to the counter and to every stack floor.

The principal reading room, which is the principal reading room, is 127 feet in diameter and rises to a height of 61 feet. The hall seats over 300 readers and the tables radiate from the service counter in the center. The main reading room is open shelves for about 10,000 volumes arranged in shallow alcoves between 28 single columns.

The periodical room contains all general publications and files of the monthly daily papers for four weeks preceding.

The commercial and technical (Continued on another page)

gives it a new and up-to-date appearance.

Coming up for the week of October 8-14, Canada will again observe "Fire Prevention Week," deemed so important that it is observed by the Dominion fire commissioners flatly states there are too many fires on Canada's farms as well as towns and cities. During the past ten years 470,000 fires in the Dominion have cost an estimated property value at more than \$264,000,000, and during that period 2,869 persons lost their lives as a result of fires. That's something to think about, alright, why everybody should make a thorough inspection of premises for fire hazards—and be careful, always. Nearly all fires can be prevented.

Mr. Clark of Husser spent the past week in town visiting his daughter, Mrs. T. Shepherd.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of Jacob Schmid, late of Gleichen, Alberta, Farmer, Decased.

Notice is hereby given that all persons having claims upon the Estate of the above named JACOB SCHMID, deceased, deceased on August 14, 1944, are required to file with the Administrator, 1010, 11th Street, N.W., Calgary, a full statement duly verified of their claims and of any security held by them and that after that date the Administrator will divide the assets of the Deceased among the parties entitled thereto, having regard only to the claims so filed on which have been brought to his knowledge.

DATED AT THE COURT HOUSE, CALGARY, ALBERTA, 20th September, 1944.

D. A. SLOAN,
Public Administrator for the Judicial District of Calgary.

Research In Canada

SCIENTIFIC RESEARCH HAS BEEN the means of opening many new possibilities to man; and has had far-reaching effects upon the course of history. Its importance is accentuated in modern warfare, when scientists are called upon not only to create new materials, but also to devise methods of dealing with the destructive forces of the enemy. While its role in wartime is often dramatic, the value of research is equally vital, and its contributions to civilian life are in many ways of greater and more lasting value. In recent years there have been interesting and important developments in the field of science, and the greater part of these are eventually adapted to serve for the good of all mankind.

Valuable Work Is Done Here

Most enlightened countries have, for many years, recognized the importance of research to general progress, and have encouraged their scientists to work in the interests of national development. Canada has organized this work through the National Research Council, with its headquarters at Ottawa. The work is carried on by that body on scientific problems of particular importance here. Canada is as yet a young nation, and the potentialities of her industries are still very great. There are undoubtedly many possibilities for the development of further uses of farm crops, and of the waste products from farms and industries, and it would be to the public interest to see that every encouragement is given to work of this kind.

Figures Show Small Outlay At a recent meeting of the Canadian Institute of Public Relations, R. W. Boyle, chief of the Physics Division of the National Research Council, said that Canada spends considerably less than Russia, Great Britain, or the United States, on scientific research. Giving the per capita figures of the expenditures on these purposes in the countries mentioned, Mr. Boyle stated that in Russia the outlay is about \$2.40; in the United States \$1.80; in Britain 80 cents, while in Canada only 20 cents per capita per year is devoted to this purpose. Canada's per capita expenditure on scientific research is the lowest in the world. There is no lack of well-qualified research workers in the Dominion. It is apparent that we are far behind in the provision which we make for this important work, and an improvement along these lines could well be included in our plans for post-war development.

Give Your Money A Chance To Work For You

City of Regina Business and Residential Property is cheap today, and is good buying as Speculation and Investment. If you wish to join one of our Syndicates to buy property send us from \$1,000.00 to \$10,000.00 immediately.

We have Syndicates now being operated for over 30 years.

Responsible Scientist

Made Supply Of Radium Possible During Siege Of Lenigrad

During the blockade of Lenigrad there was a shortage of life-saving radium for the front, according to the Soviet Information Service.

A building in which radium had been used for 20 years was thoroughly scraped, the plaster removed from the walls, and a considerable supply of radium extracted from the waste. The scientist responsible was awarded the Order of Red Banner of Labor.

"SALADA" TEA

OUR COMPLETE SHORT STORY—

AIDE TO CUPID

By MABEL G. SHEILTON

McClure Newspaper Syndicate

"Granny will you do me a favor? Beth Thomas looked appealingly at her grandmother, her blue eyes anxious.

Granny Bevins snorted. "And when you do, you're not going to remember. I've got to get to the candlelight service at the church by six. Is it something I can do before then?"

"Yes. I-t's-well, you see, Harvey Ry is coming tonight, and I asked him to come. I've just got all things ready before you go, so he says he's anxious to eat one of my meals, that he knows I'm a wonderful cook—after living with all these years."

"Granny morded again. "And Harvey Ry is coming tonight, and I asked him to come. I've just got all things ready before you go, so he says he's anxious to eat one of my meals, that he knows I'm a wonderful cook—after living with all these years."

"Oh, well, Granny. Every girl loves when she gets engaged. But won't you help me out this time?"

Granny didn't like the sound of that "engaged," but she promised to cook the meal.

"You do know, Beth. Missed her wedding there. Just have everything ready for me to warm up at the last minute. I've got to run now."

Granny thought about Harvey Ry. While she peeled the potatoes, she had had time to think of Beth's marriage now. Not that she could put her finger on anything, especially wrong with the boy, but he just wasn't good enough for her lovely, golden-haired Beth. Of course, he was a good boy, but she just didn't mean that he was a good boy, but that didn't mean he was a good boy. Probably never would be anything higher than a teller.

"Expecting my girl to slave for him, is she, granny? And here she was, working her fingers to the bone, helping Beth to share him.

Then an idea came to her. She thought it over and decided it was pretty clever. "What's the taste of my meal, mom?" she asked. "I'll have to taste another one after this. And I won't be breaking my word, either. I said I'd cook supper,

and cook it I will. I didn't say how I'd cook it."

It was a shame to do it perfectly. Beth had to wait to taste it. The things that should have had sugar got salt, and vice versa. She put so much salaratus in the biscuits that they developed—rusty taste. She had to boil the fresh green peas for a long time with baking soda. They came out a brilliant green, but hard as marbles. And she made the cream sauce lumpily.

Granny was a thrifty soul and a good cook, and to spoil and waste like this hurt her conscience. "It's for the good of my girl," she kept telling herself. "She's not going to think I'm a bad cook."

Finally the meal was ready. It looked delicious, but she knew how horrible everything would taste. "In my right mind would marry a girl who cooked like that," she said to herself.

She hurriedly changed her dress and set out for the church. The candlelight service had begun before she arrived.

"Here," somebody thrust a candle and a slip of paper into her hands. "It's for the last row. You just go to the front, and light what's on the paper and light your candle from the big one."

Granny sank back in her seat with a sigh. But she had just come to the church, and she was warming up to the atmosphere. What a meal—dry, stringy pork, cake with any baking powder! Oh, it was a proper mess!

She dove into the meal. This sometimes helped her and said it was time to light her candle. She went to the front of the room in a daze and opened her paper.

The lights were dim, and she shamed to look at the faces in the congregation. "One hand at a time," she said loudly. "I can't read this thing. It wouldn't be right."

A moment followed her as she stood down the aisle. The hand had gone back to Granny's eccentricities, but they still regretted them. She did not stop until she reached home, and then she kept repeating, "Faithful, true, kind and good." This was the only one to be seen at home, but the dining table was littered with that awful meal.

"Beth," she called, "are you here?" Beth came flying down the stairs, her face glowing. "Oh, granma, you've come. Harvey had to go, but—look!" She held up her left hand and Harvey caught the glitter of a diamond. Her eyes fairly popped.

"We're engaged. And Harvey's been promoted to cashier. Isn't it thrilling?"

Granny tried twice before she could speak. "Did he like the supper?"

Beth looked worried. "No, not exactly. Granny, I must be the world's worst cook. I spoiled all that lovely food somehow. You must be right, though, to teach me to cook."

"Harvey asked you to marry him, anyway," she said.

Beth giggled. "Yes, and he was real sweet about the supper. He said it was very good, though he said if it had been any good he would have thought you cooked it. Isn't that rich?"

Granny was busy raking food into the garbage pail. "Rich is no word for it," she muttered.

REQUIRES A WITNESS

Mark Twain said even the cleverest and most perfect circumstantial evidence is likely to be at fault after it has been tampered with and tampered with with great caution. Take the case of any pencil sharpened by any woman; if you have witnesses, you will find she did it with a knife, but if you take simply the aspect of the pencil, you will say she did it with her teeth.

Beth looked worried. "No, not exactly. Granny, I must be the world's worst cook. I spoiled all that lovely food somehow. You must be right, though, to teach me to cook."

"Harvey asked you to marry him, anyway," she said.

Beth giggled. "Yes, and he was real sweet about the supper. He said it was very good, though he said if it had been any good he would have thought you cooked it. Isn't that rich?"

Granny was busy raking food into the garbage pail. "Rich is no word for it," she muttered.

MUFFINS CAN HELP KEEP YOU REGULAR

—by eating several delicious Kellogg's ALL-BRAN muffins every day, and drinking plenty of water, you can keep your colon clean and free of "bulk" in your diet.

KELLOGG'S ALL-BRAN MUFFINS

2 cups flour
1 cup shortening
1 1/2 cups Kellogg's
All-Bran cereal

Shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
1/2 cup water
1/2 cup shortening

1/2 cup Kellogg's All-Bran cereal

1/2 cup shortening and sugar, 1 cup sifted flour, 1 cup shortening, 1 1/2 cups Kellogg's All-Bran cereal

2 eggs
1 1/2 cups milk
1/2 cup sugar
